Memo to File:

RE: Utah West Mining & Development  
Delta Mine  
Emery County, Utah  
ACT/015/020

A brief inspection of this operation was conducted by Tom Suchoski and Jim Smith on May 10th. Mining activity was temporarily halted due to development of the Bluebird claims across the canyon.

It appeared that stripping of the slope face had been curtailed due to the presence of two portals which have been driven into the hill approximately 650 feet. Other than the new portals, the disturbance looks about the same. New pictures were taken.

The Division is still waiting for Utah West Mining and Development to settle the matter of submitting the reclamation surety, which includes the two portals. Mr. Mecham said he would be into the office this coming week.
